

Only 2 weeks left to invest!!!

Our share offer is nearly over but you still have plenty of time to invest.

I apologise for sending you another email so soon, we will return to our monthly updates in the New Year. However, we are at a crucial stage in our project now with only two weeks to go of our Share Offer. We are really pleased by the response that we've had so far, with a substantial £133,060 being raised by the community. Please help us raise the remaining £116,940 required.

To invest please visit: <http://www.sheffieldrenewables.org.uk/get-involved/invest/>

From past experience most investment comes in the last few weeks so if you are thinking of investing right now, you're in good company.

Your investment will help to build the Jordan Dam Hydro Scheme which will create green electricity, reduce carbon emissions and contribute financially towards future local renewable energy projects. Renewable energy is the big topic of conversation at the moment and this is your chance to get involved and have a stake in Sheffield's contribution to making our world more sustainable.

Construction is due to begin in 2013 with electricity being produced by this time next year. Please help us to make this project a reality by either investing or helping us to promote our work.

Everyone at Sheffield Renewables thanks you for your interest and support.
